Stramit® Flashing & Downpipes to match your roof colour

Stramit® roof and wall cladding is available in a variety of profiles to suit any architectural style. You can choose from the full range of COLORBOND® colours, or opt for traditional ZINCALUME® and Galvanised steel with flashing and downpipes to match. For extra protection against the elements, ask about Stramit® Premium Materials & Finishes.

Gloss colours available in specific products only.

The printed steel colours shown have been reproduced to represent actual colours as accurately as possible. However we recommend checking your chosen colour against an actual product sample before purchasing as varying light conditions and print limitations affect colour tones.
