

COLORBOND® STEEL

The COLORBOND® steel range of designer colours offers a classic and contemporary palette to enhance the beauty of every build.

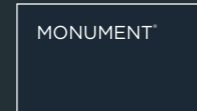

CONTEMPORARY COLOURS

COLORBOND® STEEL MATT

COLORBOND® ULTRA STEEL

UNICOTE® LUX

Colorbond®

The COLORBOND® steel colour swatches and images shown have been reproduced to represent actual product colours as accurately as possible. However, we recommend checking your chosen colour against an actual sample of the product before purchasing, as varying light conditions and limitations of the printing process may affect colour tones. COLORBOND®, ZINCALUME® and * colour names are registered trade marks of BlueScope Steel Limited. ™ colour names are trade marks of BlueScope Steel Limited. ABN 16 000 011 058.

Unicote® is a registered trademark of Colossal Management Pty Ltd.

Many colours and finishes are kept in stock for fast manufacture and delivery. However, some colours and finishes require longer lead times and, in some cases, minimum order quantities. Check with your Stramit Building Products representative before ordering. Note that not all products are available in all finishes.

AVANTALINE™ ARCHITECTURAL WALL CLADDING

Smooth shadow lines and flat panels form a seamless and captivating modern look.

For success in modern architectural design, you need a diverse suite of building products to support your vision.

That's why we've added our new AvantaLine™ cladding to the Stramit Architectural Range, growing the collection to include another highly sought-after design option.

With its clean lines, flat panels and express joints and channels, AvantaLine® cladding creates a distinctive shadow effect. It's ideal for those seeking a sleek, contemporary architectural facade for their home or commercial project. AvantaLine™ cladding gives a smooth finish, hiding joints and fixings for a seamless look and feel.

Made from non-combustible, highly durable roll-formed steel, AvantaLine™ cladding gives you complete peace of mind for a long-lasting finish. It offers the same high quality and superior engineering of Stramit's other cladding products.

Even more textures to design with using our newly expanded Architectural Range

Create a sleek contemporary look with raised flat panels and shadow-forming recesses.

- Fully mechanical interlocking system, with a 15mm channel creating shadows for depth and texture.
- Features smooth clean lines and flat panels for a strong contemporary finish.
- Forms a weather-tight unit with no exposed rivets or screws on the exterior surface.

Play with line direction, colour and finishes to get the look you want.

- Can be installed vertically or horizontally.
- Create a subtle or bold statement with contemporary colours and finishes including COLORBOND® steel and UniCote® LUX.
- Available in 285mm panel width, and 480mm on request.

Juxtapose or smoothly integrate textures using our complete Architectural Range.

- Adds a bold feature to larger commercial buildings.
- Perfectly complements other architectural products, such as Stramit's SharpLine® cladding.

Design with peace of mind using a safe, tested and non-combustible product.

- We test our products in our very own Research and Development lab to ensure National Construction Code (NCC) compliance.
- We make supporting technical data and advice readily available, so you know exactly how it performs and can design with confidence.
- Made from non-combustible, roll-formed steel.
- Know you've got the data to support supplier discussions and the certification process.
