

A photograph of a modern, single-story house with a dark-colored roller door. The house has a light-colored exterior wall and a dark roof. The roller door is dark and has a horizontal ribbed texture. The house is set on a green lawn with a paved driveway in the foreground. The sky is a clear blue.

**ENHANCE YOUR
HOME WITH A TAUREAN®
ROLLER DOOR**

The PR1ME Collection

When choosing a roller door from the Taurean® Pr1me Collection you're getting a door that's strong, reliable and offers real value.

A roller door with good looks and performance to boot!

Every Taurean® door features a stylish curtain made from high quality Colorbond® steel in a wide range of contemporary colours, with a full range of sizes up to 3100mm high and 5400mm wide.

So whether you have a single or a double car garage, Taurean's Pr1me range is ready to enhance your home.

Taurean® Door Systems is strong in history

Taurean® Door Systems is part of the Fletcher Building Group and has grown from two great Australian companies, Stramit® and Creeks. So our customers can be reassured that the products they buy are backed by many years of proven performance. Today our key values that drive us forward are the same as they have always been; *innovation, reliability, security and safety.*

Taurean® PR1ME Collection for security, strength and style

- Australian designed and manufactured
- Smooth, quiet operation
- High quality spring system ensures peace of mind
- Strong curtain due to roll forming process
- Stylish appearance

Warranty

For domestic installations only, 12 month warranty on steel cracking, lock seam failure of the door curtain and all other items of the door. Excluded from the warranty is salt corrosion or any damage to the door curtain because of any environmental conditions or issues. For more details please refer to the Taurean® Door Systems website, www.taureands.com.au

Taurean® PR1ME Collection for real peace of mind

Operation

Nylon braided edging, the moulded nylon drum wheels and the nylon bottom rail plug provide a beautifully smooth and quiet door during operation.

Safety

Features such as track stops that ensure the door remains in the tracks even with rough treatment, a smooth edged door handle on manual doors and no sharp edges anywhere on the door ensure the safety of your family.

Long Life

Of course the life of your door is all important so galvanised brackets, tracks and other components protect against corrosion.

The springing system too is designed for more than 25,000 cycles which maximises the performance of the door over its lifetime.

Weather Protection

Flexible sealing strip along the bottom rail prevents entry of dust and leaves.

Automation

Taurean® roller doors are often operated manually but if you prefer they can be automated to make opening and closing your door even easier.
